Subject: FWD: Please have Military on standby adjacent to Parliament

Importance: High

Êtes-vous une gang de fous???

Qui annonce à l'ennemi vos intentions et stratégies (annoncer au public vos intentions de faire appel à une intervention militaire)?

Vous n'auriez dut JAMAIS déclarer que vous auriez besoin du Militaire!

Vous auriez dut simplement donner la commande d'avancer et de faire ce qu'il fallait, c'est-à-dire,

- 1) throw these occupiers/insurrectionists in military jail (*the public statements that leaders want the government leadership changed is justification enough of labelling them insurrectoinists*) and hold until ...
- 2) impound the vehicles, sell them off, and use the funds to offset the costs incurred (civilian and military) and damages to city/private property, and
- 3) have someone go to every residence in downtown area that was blocked to see if there are any that have suffered stroke/heart attacks and died due to the noise, disruption or lack of food, due to some inability to be able to contact/communicate with others.
- 4) **if anybody has died in their residence due to this, they should ALL be held accountable** as having contributed to an illegal act that lead to the death of an innocent citizen.

Also ...

- a) why have there been no attempts to block the refuelling of the "protesters" ???
- b) why has there been no attempt to break the "supply chain" of food/booze/smokes reaching them ???
- c) why has the city abandonned Center-Town, without having Police patrols to protect the citizens there ???

Time for talking is long past.

You need to fix this NOW !

And ... YES ... we are overdue of a military intervention. That should have happened Sunday night when it was clear they weren't leaving.

Thank you for hearing me out.

Personal Info.

To al of you, **in positions of responsibility to keep us all safe ...**

We cannot allow anything like the shameful Capitol-Hill event in the US happen here ... under any circumstance.

The Security Detachment on the hill is nowhere equipped to deal with the numbers that are being suggested by media.

Our top-notch Military Personnel should be "in the wings", ready to spring into action at a moment's notice, so that foolish idiots will know better than to try what happened in the US.

Thank you for hearing me out.

Personal Info.

P.S. This seems too sudden and "intense" to have emerged from the "masses" on its own. This feels too much like a foreign power's instigation (Russia to distract us about pending invasion of Ukraine; China as punitive while Athletes are potential hostages during the 2022 Winter Games).
